**NOT ALL PROFESSIONAL  
INDEMNITY INSURANCE BROKERS  
CAN SPOT THE DIFFERENCE**

# WHICH IS WHY WE HAVE DEVELOPED A BESPOKE SCHEME FOR INVESTMENT AGENTS

## ARE YOU PAYING TOO MUCH?

As an investment or commercial agent you could be paying significantly less for your professional indemnity insurance premiums.

Why? Because not all brokers fully appreciate the difference between general practice surveyors and investment agents. This means that many agency firms who act as property brokers attract a similar risk rating and premiums as surveying practices that undertake surveys and valuations.

We know that the real risk of underwriting an investment agent can be considerably less than a property surveyor.

## MORE STRAIGHTFORWARD

This is why we've introduced The Investment Agent's Professional Indemnity Scheme – bespoke, relevant and straightforward professional indemnity cover, at realistic rates.

Bespoke – because it is tailored solely to investment agents, with premiums priced independently of the rest of the chartered surveying profession.

Relevant – because the policy wording is RICS compliant.

Straightforward – because the proposal form only asks questions pertinent to you and is shorter and easier to complete.

## FROM ONE OF THE COUNTRY'S LEADING INSURANCE TEAMS

TLO and QBE is the broking/underwriting team behind this innovative scheme.

TLO has the client handling and broking expertise through experienced personnel who understand the nuances of the investment agent's world.

QBE, one of the world's leading insurers, offers the underwriting expertise, capacity, appetite for risk and 'A+' rated security, to guarantee you peace of mind.

Why not find out what difference we can make!
